----------------	-------	----------------	-------

The performance data quoted represents past performance. Past performance does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted.

Transamerica Short-Term Bond (the "Fund") is subject to market risk, including loss of principal. Before investing, you should carefully consider the Fund's investment objectives, risks, charges and expenses.

[Click here](#) for a copy of the prospectus containing this information and other important facts. Please read the prospectus carefully.

The distribution data presented represents the Fund's most recent distribution. Current and future distribution yield may be lower or higher than those presented. The investment return and principal value of the Fund will fluctuate over time so that shares, when redeemed, may be worth more or less than their original cost.

Short-term bond funds are exposed to risks, including credit risk, inflation risk, interest rate risk and also foreign securities and mortgage -backed securities risks.

The Fund is one in a series of Transamerica Funds which is advised by Transamerica Asset Management, Inc. and distributed by Transamerica Capital, Inc. Transamerica Investments is a distribution unit of Transamerica Capital, Inc. and is not a registered investment adviser or registered investment company. Transamerica Investments is a service mark of Transamerica Capital, Inc.

*** Distribution Yield**

The distribution yield is an estimated annualized dividend yield calculated by annualizing the Fund's recent distribution and dividing the result by the Fund's most recently published offering price at the appropriate sales charge levels. The distribution yield represents a single distribution from the Fund and does not represent the total return of the Fund.

**** SEC 30-day Yield**

The SEC 30-day Yield is computed in accordance with a standardized method prescribed by rules of the SEC. The SEC 30-day Yield is computed by dividing the Fund's investment income per share earned during a particular 30-day base period by the maximum offering price per share on the last day of the base period, and then annualizing the result. The SEC 30-day Yield is calculated at each month end and updated within the first ten business days of the following month.
